

Ação da Cidadania

Statements of Commitment to the Global Alliance Against Hunger and Poverty

General section

1. Ação da Cidadania hereby voluntarily *joins the Global Alliance Against Hunger and Poverty* and states its dedication to pursue the Alliance's mission, objectives and principles, as *expressed* in the Global Alliance's Terms of Reference and Governance Framework, and to collaborate with other members to achieve lasting solutions to poverty and hunger worldwide, as expressed below.

Ação da Cidadania:

2. *Recognizes* that hunger and malnutrition are the perverse manifestations of persistent, structural poverty and inequality, and recognizes the need to end poverty and hunger in all their forms and dimensions and to fully and effectively implement the 2030 Agenda.
3. *Acknowledges* the alarming growth in the number of people facing food insecurity and poverty in recent years, noting that, despite all significant past and current efforts, the world is not on track to meet SDG 1 and 2 targets, inequality is also on the rise (SDG 10), and a significant increase in collective ambition, as well as improvement in collective alignment and coordination for the fight against hunger and poverty, is urgently needed.
4. To that effect, *endorses* the Global Alliance Against Hunger and Poverty and its mission to *support and accelerate efforts to eradicate hunger and poverty (SDGs 1 and 2) while reducing inequalities (SDG 10), contributing to revitalize global partnerships for sustainable development (SDG 17) and to the achievement of other interlinked SDGs, and championing sustainable, inclusive and just transitions.*
5. *Notes* that it is crucial for the world to unite behind large-scale, integrated approaches combining international, regional, national, and local levels, that recognize the interconnected nature of challenges and solutions to hunger and poverty and pair social protection with access to goods and services that can help the poor and vulnerable populations to overcome structural barriers and drive responsible investment in their productive capacity. These complementary services include but are not limited to interventions for poverty reduction, food security and nutrition, early childhood support, education and skills development, employment services, health and care services, as well as family farmers and smallholders' access to finance, extension services, research and/or agricultural inputs, in line with international commitments and obligations.
6. *Particularly recognizes* the high value and positive impact of quality implementation of national and local country-owned, inclusive policy instruments and programmes, focused on the poorest and most vulnerable, in the fields of poverty reduction, social protection, food security and nutrition, gender equality, decent work in the agri-food

sector, skills development, family farming and smallholder agriculture, food systems transformation, health and care services and resilience building.

7. Also *acknowledges* the Global Alliance's reference basket of such policies as a collectively built, ongoing collection of examples with robust evidence to reduce hunger and poverty, and as a useful basis to guide joint action and increase alignment of the international community at country level. This acknowledgement is applicable to the policy basket approach as a general guide to action and does not imply endorsement of any specific policy instrument or programme contained in the basket.
8. Therefore, by joining the Global Alliance Against Hunger and Poverty, *commits* to do its best efforts, in its own field of action, and according to its own mandate, capacities, priorities, preferences, procedures, and legal arrangements and framework, to support the implementation of policy instruments and programmes at country level as appropriate, including by the promotion of shared learning and the mobilization of resources, public and private, at scale.

In particular:

Knowledge support commitments

Ação da Cidadania:

Commits to make its best efforts to co-create and provide technical assistance, capacity building and strengthening, training and/or knowledge-sharing on voluntary and mutually agreed terms in response to requests by Global Alliance member countries that choose to implement policy instruments and programmes in the Alliance's policy basket that are compatible with its areas of expertise.

Commits to make its best efforts to improve the alignment of its actions, including through the Global Alliance's coordination mechanisms, leveraging, and partnering with other actors to better support large scale, country-owned implementation of policies and programmes in the reference basket by Global Alliance member countries, aiming at enhancing country-level outcomes.

Commits to collaborate with other Alliance members to develop innovative solutions and share good practices in learning and knowledge exchange and dissemination on voluntary and mutually agreed terms, data collection and analysis, including by leveraging existing local, national, and international knowledge networks, coalitions, communities and other fora related to aspects relevant to the fight against hunger and poverty.

Informs and commits to implementing the following actions, programmes, and other activities in support of the Global Alliance's objectives:

Active Search Project (Busca Ativa) is an initiative of Ação da Cidadania originally developed in partnership with the Ministry of Development and Social Assistance, Family and Fight against Hunger (MDS) which aligns with SDG 1, 2, 10 and 17. It aims to identify and direct families that are not registered in the Single Registry (CadÚnico)

to the Social Assistance Policy equipment in order to access the registry. CadÚnico is the main entry to various public policies, such as Bolsa Família, Continuous Payment Benefit (BPC), Social Electricity Tariff, among others. The aim is to locate and refer families in situations of poverty and extreme poverty who do not yet have guaranteed minimum social rights. The mapping of families is carried out by community leaders and volunteers from Ação da Cidadania, who refer identified individuals to Social Assistance Reference Centers (CRAS) to continue the process of accessing social policies. The project is initially being implemented in the Metropolitan Region of Rio de Janeiro, where there is a high concentration of families in vulnerable situations. The country has faced significant challenges in combating poverty and social inequality, making the project especially relevant in this context. Other developing countries facing similar challenges of poverty and social exclusion can benefit from similar active-seeking initiatives, tailored to their local realities and specific needs. Any country that has adopted CadÚnico - or other similar single registration mechanisms - and that has significant populations in vulnerable situations can benefit.

General acknowledgments

Recognizes the possibility to, including through the mechanisms available to Global Alliance members, coordinate, partner with and/or seek support from the Global Alliance's other members, within their respective capacities, availability, and fields of activity, to carry out the present commitments with greater effectiveness.

While recognizing that the above commitments are voluntary and non-legally binding, being subject to and carried out under its own capacities, regulations, priorities, and modalities, as well as to the availability of appropriate resourcing, *strives* to seriously consider, as appropriate, and according to its own legal frameworks and governance process, to review its procedures and priorities as found necessary to better deliver on the present commitments, enhance synergies and joint efforts with other entities and initiatives, and improve outcomes on the collective fight against hunger and poverty.
