Statements of Commitment to the Global Alliance Against Hunger and Poverty

General section

1. The Children's Investment Fund Foundation (CIFF) hereby voluntarily *joins the Global Alliance Against Hunger and Poverty* and states its dedication to pursue the Alliance's mission, objectives and principles, as *expressed* in the Global Alliance's Terms of Reference and Governance Framework, and to collaborate with other members to achieve lasting solutions to poverty and hunger worldwide, as expressed below.

The Children's Investment Fund Foundation:

2. *Recognizes* that hunger and malnutrition are the perverse manifestations of persistent, structural poverty and inequality, and recognizes the need to end poverty and hunger in all their forms and dimensions and to fully and effectively implement the 2030 Agenda.
3. *Acknowledges* the alarming growth in the number of people facing food insecurity and poverty in recent years, noting that, despite all significant past and current efforts, the world is not on track to meet SDG 1 and 2 targets, inequality is also on the rise (SDG 10), and a significant increase in collective ambition, as well as improvement in collective alignment and coordination for the fight against hunger and poverty, is urgently needed.
4. To that effect, *endorses* the Global Alliance Against Hunger and Poverty and its mission to *support and accelerate efforts to eradicate hunger and poverty (SDGs 1 and 2) while reducing inequalities (SDG 10), contributing to revitalize global partnerships for sustainable development (SDG 17) and to the achievement of other interlinked SDGs, and championing sustainable, inclusive and just transitions.*
5. *Notes* that it is crucial for the world to unite behind large-scale, integrated approaches combining international, regional, national, and local levels, that recognize the interconnected nature of challenges and solutions to hunger and poverty and pair social protection with access to goods and services that can help the poor and vulnerable populations to overcome structural barriers and drive responsible investment in their productive capacity. These complementary services include but are not limited to interventions for poverty reduction, food security and nutrition, early childhood support, education and skills development, employment services, health and care services, as well as family farmers and smallholders' access to finance, extension services, research and/or agricultural inputs, in line with international commitments and obligations.
6. *Particularly recognizes* the high value and positive impact of quality implementation of national and local country-owned, inclusive policy instruments and programmes, focused on the poorest and most vulnerable, in the fields of poverty reduction, social protection, food security and nutrition, gender equality, decent work in the agri-food sector,

skills development, family farming and smallholder agriculture, food systems transformation, health and care services and resilience building.

7. Also *acknowledges* the Global Alliance's reference basket of such policies as a collectively built, ongoing collection of examples with robust evidence to reduce hunger and poverty, and as a useful basis to guide joint action and increase alignment of the international community at country level. This acknowledgement is applicable to the policy basket approach as a general guide to action and does not imply endorsement of any specific policy instrument or programme contained in the basket.
8. Therefore, by joining the Global Alliance Against Hunger and Poverty, *commits* to do its best efforts, in its own field of action, and according to its own mandate, capacities, priorities, preferences, procedures, and legal arrangements and framework, to support the implementation of policy instruments and programmes at country level as appropriate, including by the promotion of shared learning and the mobilization of resources, public and private, at scale.
