

The Czech Republic

Statements of Commitment to the Global Alliance Against Hunger and Poverty

General section

1. The Czech Republic hereby voluntarily *joins the Global Alliance Against Hunger and Poverty* and states its dedication to pursue the Alliance's mission, objectives and principles, as *expressed* in the Global Alliance's Terms of Reference and Governance Framework, and to collaborate with other members to achieve lasting solutions to poverty and hunger worldwide, as expressed below.

The Czech Republic:

2. *Recognizes* that hunger and malnutrition are the perverse manifestations of persistent, structural poverty and inequality, and recognizes the need to end poverty and hunger in all their forms and dimensions and to fully and effectively implement the 2030 Agenda.
3. *Acknowledges* the alarming growth in the number of people facing food insecurity and poverty in recent years, noting that, despite all significant past and current efforts, the world is not on track to meet SDG 1 and 2 targets, inequality is also on the rise (SDG 10), and a significant increase in collective ambition, as well as improvement in collective alignment and coordination for the fight against hunger and poverty, is urgently needed.
4. To that effect, *endorses* the Global Alliance Against Hunger and Poverty and its mission to *support and accelerate efforts to eradicate hunger and poverty (SDGs 1 and 2) while reducing inequalities (SDG 10), contributing to revitalize global partnerships for sustainable development (SDG 17) and to the achievement of other interlinked SDGs, and championing sustainable, inclusive and just transitions.*
5. *Notes* that it is crucial for the world to unite behind large-scale, integrated approaches combining international, regional, national, and local levels, that recognize the interconnected nature of challenges and solutions to hunger and poverty and pair social protection with access to goods and services that can help the poor and vulnerable populations to overcome structural barriers and drive responsible investment in their productive capacity. These complementary services include but are not limited to interventions for poverty reduction, food security and nutrition, early childhood support, education and skills development, employment services, health and care services, as well as family farmers and smallholders' access to finance, extension services, research and/or agricultural inputs, in line with international commitments and obligations.
6. *Particularly recognizes* the high value and positive impact of quality implementation of national and local country-owned, inclusive policy instruments and programmes, focused on the poorest and most vulnerable, in the fields of poverty reduction, social protection, food security and nutrition, gender equality, decent work in the agri-food sector, skills development, family farming and smallholder agriculture, food systems transformation, health and care services and resilience building.

7. Also *acknowledges* the Global Alliance's reference basket of such policies as a collectively built, ongoing collection of examples with robust evidence to reduce hunger and poverty, and as a useful basis to guide joint action and increase alignment of the international community at country level. This acknowledgement is applicable to the policy basket approach as a general guide to action and does not imply endorsement of any specific policy instrument or programme contained in the basket.
8. Therefore, by joining the Global Alliance Against Hunger and Poverty, *commits* to do its best efforts, in its own field of action, and according to its own mandate, capacities, priorities, preferences, procedures, and legal arrangements and framework, to support the implementation of policy instruments and programmes at country level as appropriate, including by the promotion of shared learning and the mobilization of resources, public and private, at scale.

In particular:

Policy cooperation and support commitments

Commits to, within its capacities, share its own learnings and otherwise provide appropriate help and support, within its means, to other Global Alliance member countries to implement, improve, or scale-up the implementation of policies and programmes referenced in the Alliance's basket.

Financial support commitments

The Czech Republic:

[1] Informs that an estimated amount of USD 300.000 of financial resources under its guidance, management or control is currently being employed to provide international development support applicable to the fight against hunger and poverty and advancing SDGs 1 and 2. The amount informed is the best possible estimation considering different applicable modalities, allocations and budget cycles, and is subject to changing circumstances and budgets. It is not to be considered a pledge of new and additional resources.

[2] In addition to the above, informs that SDG 1 and 2 are priority goals anchored in the Strategy of Development Cooperation of the Czech Republic 2018-2030. Czechia also supports programmes of the Food and Agriculture Organization and the World Food Programme in fighting hunger and malnutrition.

Commits to make its best efforts to improve the destination, allocation and alignment of the use of its resources, including through coordination and cooperation facilitated by the Global Alliance, to support member countries to implement, improve, or scale-up the implementation of select programmes or policy instruments in the Alliance's reference basket to drive the fight against hunger and poverty, in line with sustainable country-led financing and implementation strategies.

General acknowledgments

Recognizes the possibility to, including through the mechanisms available to Global Alliance members, coordinate, partner with and/or seek support from the Global Alliance's other

members, within their respective capacities, availability, and fields of activity, to carry out the present commitments with greater effectiveness.

While recognizing that the above commitments are voluntary and non-legally binding, being subject to and carried out under its own capacities, regulations, priorities, and modalities, as well as to the availability of appropriate resourcing, *strives* to seriously consider, as appropriate, and according to its own legal frameworks and governance process, to review its procedures and priorities as found necessary to better deliver on the present commitments, enhance synergies and joint efforts with other entities and initiatives, and improve outcomes on the collective fight against hunger and poverty.
